

RESIDENTIAL AGED CARE

**From RAD Checks to specialised ACFI education;
we are residential care experts.**

Residential Aged Care is a fast paced and ever changing environment with constant challenges, risks, and pressures. While successes can be very rewarding, operating a business 24 hours a day, 7 days a week, 365 days a year that's core purpose is caring for elderly and vulnerable people brings unique considerations and challenges that are not experienced in most businesses.

The CareCFO team has worked in the aged care sector in small facilities in country towns to large national corporations with facilities throughout the country. We have worked with thousands of clients on a variety of projects. We are passionate about ensuring the ongoing viability of residential facilities and view them as a cornerstone of a thriving and caring community.
